Rutan a legendary pilot with many stories

Even without the Voyager flight that captured the world's attention and fascination in 1986, Dick is an aviation legend.

- He flew 325 combat missions during the Vietnam War, having his F-100 shot out from under him on his last mission.
- He flew around the world in a Long EZ on behalf of the EAA.
- He made a dramatic emergency bail-out from the Global Hilton, a free balloon attempting to circumnavigate the globe.
- On a sightseeing flight to the North Pole in 2000 in a Russian AN-2, the airplane fell through the ice. The crew was able to retrieve survival gear from the plane – gear that proved the difference between life and death, as Dick and the other passengers were stranded on the ice at the North Pole for 12 hours until a rescue plane arrived.

He is currently chief test pilot for the first-ever rocket-powered Long EZ, an aircraft in which he expects to set still more world records.

Dick retired from the U.S. Air Force as a Lt. Colonel has been awarded the Silver Star, five Distinguished Flying Crosses, 16 Air Medals, the Purple Heart, and the Presidential Citizen's Medal of Honor. He is also a member of the National Aviation Hall of Fame.

Dick is not only one of the world's most experienced pilots, he is also an inspirational speaker, a wonderful storyteller, and just a nice guy who likes to hang out with other people who love aviation.
